

August 19, 2025

Pixelle Specialty Solutions ("Pixelle") continues to look for ways in which we can support the needs of our customers with respect to EUDR compliance. To that end, Pixelle has reached agreement with ResourceWise® to onboard and implement their proprietary EUDR tracking solution, Forest TracktSM, across the fiber supply chain that supports our Spring Grove, PA, facility.

Pixelle has invested substantial staff and resources in an effort to better understand the necessary requirements of the EUDR legislation, and we will continue to do so as the trade agreements between the US and Europe come into sharper focus. In the meantime, we have committed to work alongside the ResourceWise experts to implement their system in the coming weeks. In turn, we commit to consistent communication with our affected customers to ensure clarity and alignment with respect to EUDR solutions.

As has always been the case, Pixelle remains committed to sustainable forestry through active participation in the Sustainable Forestry Initiative® (SFI), Forest Stewardship Council® (FSC), and the Programme for the Endorsement of Forest Certification (PEFC).

A handwritten signature in black ink, appearing to read "Patrick Power".
