TRANS/RITE® | CB

Trans/rite premium carbonless paper is designed for high performance and reliability. It demonstrates outstanding runnability and is designed to run on all offset equipment. It provides a deep, intense black image that is readable immediately and prints through five plies, with a bright white surface for excellent aesthetics on multi-part forms.

Many Trans/rite products are available with treatment for use in edge pad (EP) and fan-apart forms applications. Contact your Pixelle sales or customer service representative for details.
