One Carbonless. Digital & Offset.

## EXCELONE® CARBONLESS

**ExcelOne carbonless sheets** are designed to run on your offset and digital forms equipment. ExcelOne has a high fiber content and less filler, giving it excellent bulk, stiffness, tear strength and tensile strength. With a basis weight of 21 lb., this paper has superior runnability.

**ExcelOne Snap-Set®.** Ideal for snap-set or unit-set forms, our pre-perforated, pre-collated forms are perforated a half inch from the top edge or side, eliminating the need for a separate operation.

**Optica® self-contained carbonless.** We also developed a self-contained, two-coat technology that prevents smudges in multi-ply forms. It is ideal for specialty forms, credit card receipts and multi-part business forms.

BASIS WEIGHT	GSM	BRIGHTNESS	OPACITY	CALIPER	SMOOTHNESS	APPLICATIONS
21 lb.	79	90	87	4.3	150	Offset & Digital

## SUSTAINABLE CARBONLESS

**NatureSolv®.** NatureSolv is a proprietary technology that uses naturally based, organic solvents to create a capsule that is environmentally responsible.

**Credits available.** FSC®, SFI® or PEFC chain of custody credits available upon request.

**CleanPress® CF.** Pixelle's CleanPress CF technology ensures our CF ply runs cleaner to minimize blanket dusting so you can run longer.

**Extensive PCW options.** All of our carbonless products are available with Post Consumer Waste (PCW) content in any ratio of 10% increments. May be subject to minimum order quantity requirements.

## FAN-APART ADHESIVE

**Our Fan-Apart Adhesive** is specially formulated for ExcelOne and Xcelerator® PLUS carbonless sheets. Our adhesive enables glued sets to be ready for use in as little as 30 minutes.

**Watch and learn how to edge-pad like a pro.**
