SPECIALTY SOLUTIONS[®]

YOUR WORK LOOKS BETTER WITH PIRELLE.

Specialty papers from Pirelle deliver more than reliable performance, they're backed by exceptional customer service and decades of industry experience that make it easier to get work done. With high-performance specialty solutions, we help to improve work life for our customers through innovation, quality and expertise.

EXTENSIVE EXPERIENCE

We leverage generations of experienced papermakers and technical capabilities to deliver unmatched quality, consistency and performance.

TAILORED SOLUTIONS

Our cross-functional teams work with customers to develop tailored solutions that meet the most challenging performance requirements.

COMMITTED TO SUSTAINABILITY

We help customers reach their sustainability goals through innovative products, responsible forest management and efficient manufacturing processes.

FIT FOR YOUR APPLICATION

GlazeStar®

INSULATION BACKING

Our natural kraft facing paper is designed for run-to-run consistency ideal for foil/scrim/kraft (FSK) building and construction insulation backing.

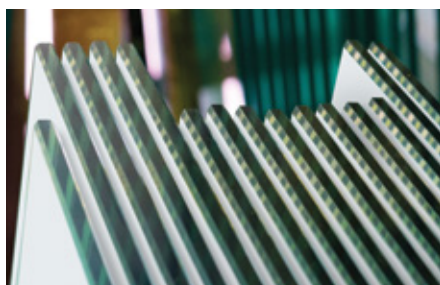

FLUOROCARBON-FREE INDUSTRIAL PAPER

Improve the environmental footprint of your industrial paper application with fluorocarbon-free barrier technology, ideal for applications like paint masking.

STAINLESS STEEL INTERLEAVING PAPERS

Protect stainless steel materials with interleaving papers that deliver neutral pH control, high surface strength and outstanding purity.

GLASS INTERLEAVING PAPERS

Protect glass from abrasion, breakage, fogging, staining and more with quality interleaving papers that deliver precise pH control.

CORROSION-RESISTANT INDUSTRIAL PACKAGING

Prevent metal parts from corroding with high-quality industrial packaging paper specially treated with volatile corrosion inhibitor technology.

INDUSTRIAL RELEASE PAPER

Our machine-glazed release base stock is compatible with silicone or nonsilicone coating for industrial applications.

MAKE IT WITH GLAZESTAR®

- ✓ Basis weights ranging from 15 lb.-200 lb.
- ✓ Excellent strength characteristics and consistent run-to-run performance
- ✓ Specific porosity and holdout properties for optimal adhesive binding
- ✓ Chain-of-custody fiber certifications available upon request
- ✓ Extensive engineering capabilities for tailored solutions
