

PointSil™ Stamp

PointSil™ Stamp is a silicone release liner base sheet, designed to meet the requirements for pressure sensitive stamp applications. The coatings on this woodfree grade are highly suitable for solventless, radiation cure, and emulsion silicones. This grade features excellent dimensional stability for good laminate lay-flat, combined with smooth, glossy reverse side coatings for printability and balance.

FEATURES AND BENEFITS

- Coatings designed for solventless, radiation, and emulsion silicones
- Excellent dimensional stability for laminate lay-flat
- Smooth, glossy reverse side coated for printability and balance
- Coated for a clean, white, premium appearance
