EXCELONE® CARBONLESS

ExcelOne carbonless sheets are designed to run on your offset and digital forms equipment. ExcelOne has a high fiber content and less filler, giving it excellent bulk, stiffness, tear strength and tensile strength. With a basis weight of 21 lb., this paper has superior runnability.

ExcelOne Snap-Set®. Ideal for snap-set or unit-set forms, our pre-perforated, pre-collated forms are perforated a half inch from the top edge or side, eliminating the need for a separate operation.

BASIS WEIGHT	GSM	BRIGHTNESS	OPACITY	CALIPER	SMOOTHNESS	APPLICATIONS

SUSTAINABLE CARBONLESS

Credits available. FSC®, SFI® or PEFC chain of custody credits available upon request.

CleanPress® CF. Pixelle's CleanPress CF technology ensures our CF ply runs cleaner to minimize blanket dusting so you can run longer.

FAN-APART ADHESIVE

Our Fan-Apart Adhesive is specially formulated for ExcelOne sheets. Our adhesive enables glued sets to be ready for use in as little as 30 minutes.

Watch and learn how to edge-pad like a pro. To watch the video, visit the video resources page on our website:
